Time charge rates must be included in all cases, since if any Additional Works is undertaken, it is charged on a time basis (see clause 9).
11. Item J - Expenses and Disbursements: There are three optional statements in respect of Expenses and Disbursements for the Parties to agree: (1) expenses and disbursements may be included in the Fee, or (2) the Building Control Approver may be entitled to charge for them, or (3) the Client may agree to the Building Control Approver charging for specific expenses and disbursements which are to be listed in the Contract Details. The options that do not apply should be deleted. If Option 3 is selected, insert the expenses and disbursements the Building Control Approver is entitled to charge.
12. Item K - Instalment Payments: Payment may be made in stage or monthly instalments where the Fee is a lump sum. Users should insert the stages/months where invoices should be submitted along with the amount that is payable. Where payment is on a time charge basis, users should set out the Services which will be charged on a time basis and unless otherwise specified time charge payment shall be invoiced monthly. Please note item K is designed to be flexible to allow payment to be on both a lump sum and time charge basis.

Completing the Contract Details

5. Items A and B the Client and the Building Control Approver: Insert the name, company number and registered office of the Client and Building Control Approver.
6. Item C - the Project: Insert a description of the project and any Client requirements.
7. Item E - the Site: Insert details on the site, including the address of the site where the Project is to be carried out.
8. Item F - the programme: Insert details on the anticipated programme of the works up to practical completion of the Project.
9. Item H - Agents: If the Client is appointing an agent, details of the agent including their name and contact information should be included. The Agent shall become responsible for managing the Client in relation to this Contract, including ensuring the Client is aware of its duties, liabilities and obligations under this Contract. It is important the Client is clear that they wish an Agent to be appointed, as if the Agent signs the Contract on the behalf of the Client, the Client will be bound by the terms and conditions of this Contract.
13. The Contract is governed by English Law and any disputes arising out of or in connection with the Contract shall be resolved exclusively by the courts of England and Wales.
14. There is uncertainty over who is 'the person carrying out the works' for the purposes of the Building Regulations and so there is an assumption in clause 5.8 that this is the Client. If the Client does not consider that this is correct then they shall notify the Building Control Approver.
15. In Clause 6, if the Parties agree in writing that the Building Control Approver shall be responsible for the obtaining and implementing all necessary permits, licences, consents and approvals, then such services will be outside the statutory functions of the Building Control Approver. Note that typical Building Control Approver professional indemnity insurance only covers liability arising from the statutory obligations of a Building Control Approver. Therefore, if any non-statutory services are provided (including pursuant to clause 6), the Building Control Approver will need to maintain separate professional indemnity insurance to cover any liability arising under or in connection with any non-statutory services.

Notes on the Terms and Conditions

16. In Clause 8.7, there is an entitlement for the Building Control Approver to charge interest at 8% above the Bank of England dealing rate on any sum which is not paid by the Client to the Building Control Approver by the Final Date for Payment. This entitlement does not apply where the Client is one or more individual(s) who are owners or occupiers of a dwelling (i.e., 'domestic' clients). This is because in some instances the law relating to Building Control Bodies is different depending upon whether the Client is a domestic client or not.
17. In Clause 16.2, the Building Control Approver's total aggregate limit on liability is limited to the greater of (i) ten times the fee or (ii) £250,000. This will need to be reviewed on a case-by-case basis to ensure that the cap on liability will not be deemed unreasonable and unenforceable (for example, where the project value is significantly higher and where it is a domestic client). The limit on liability must be no higher than the level of insurance maintained by the Building Control Approver, otherwise the Building Control Approver will be exposed to uninsured liability.
18. Following recent issues regarding fire safety, the insurance market has hardened and there is less cover available for fire safety claims. Therefore, the Contract (in clause 16.3) includes an evaporation clause whereby the Building Control Approver's liability for fire safety and/or cladding claims, has been limited to the lesser of the financial cap on liability stated in item G of the Contract Details or the amount (if any) recoverable by way of indemnity under the Building Control Approver's professional indemnity insurance.
19. As with fire safety, there is very limited insurance cover available in the market for asbestos, and in respect of pollution and contamination it is common for typical professional indemnity insurance to exclude liability for these all together. In clause 16.4, liability in respect of asbestos, pollution and contamination have been excluded in their entirety.
20. In Clause 16.5, there is an exclusion of liability in respect of indirect and consequential losses, which provides that the Building Control Approver shall not be liable for losses which are far removed from its services.
21. In Clause 16.6, the Contract also includes what is called a 'net contribution' clause, which provides that if both the Building Control Approver and another party are liable to the Client in respect of the same loss or damage, the Building Control Approver will only have to pay a fair and reasonable proportion of the Client's losses, having regard to the extent of the Building Control Approver's responsibility for the loss or damage. This is needed because a number of different parties will be working on the Project and it is unreasonable for the Building Control Approver to be liable for all the loss suffered by the Client if another party was partially responsible for the same loss.
22. In Clause 18.1, where the Client is an individual acting for a purpose which is wholly or mainly outside that individual's trade, business, craft or profession (the "Consumer"), the Consumer Contracts Regulations gives them a right to cancel the Contract for any reason by issuing a notice of cancellation within 14 days of the commencement of the Contract. The Consumer will issue their cancellation notice using the template form provided in Part 5. The form in Part 5 is simple to use and only requires the user to insert details of the client (or where an Agent is appointed, the agent's details) and the date of the Contract. It is important that where the Client is a Consumer, the Registered Building Control Approver talks through any key points of the contract and arranges for the document to be signed by both parties before it commences work.

The Services (Part 4)

23. The Services to be provided should be clearly set out in Part 4 and should reflect what the Parties have agreed. If the Building Control Approver is to undertake any Additional Work, this should also be clearly set out in Part 4. Any services requested after the Contract has been entered into will be charged on a time basis (see clause 9).
